

SPECIAL SELECTBOARD MEETING  
FRIDAY, DECEMBER 8, 2023 AT 1;00PM  
AT THE PARK ON ROUTE 105 BY THE RECYCLING CENTER  
ALSO SEE BELOW  
AGENDA

TIME

BOARD  
ACTION

1:00PM Stakeholders and regulators are invited to meet for a site visit and to consider alternatives for sediment removal and dam removal in Newport Center on Friday December 8 from 1-3 pm. If anyone is not able to attend and would like to submit written comments, please send them along to me and I will bring them to the meeting.

We will gather at the parking area at E911 address 4091 VT RT 105, Newport Center. It is a small park with some parking just off the street, and the town recycling building is there. After we look and talk about the site together, we will walk to look at the dam itself and then to the fire station for an indoor space to look at maps and have further discussion.

We look forward to seeing you all there. Let me know if you have any questions or if I can be helpful in some way leading up to the meeting.
