

General Notes

Topography compiled 2014. Planimetry derived from ground-based GPS data collected by Luke Hardt. GPS data was collected with a Trimble DGPS. All planimetry represented on this map is relative to its time of conception. This map's accuracy will diminish with time as succession and other processes change the landscape. Geographic reference points are in the "Vermont Coordinate System"(NAD_1983_StatePlane_Vermont_FIPS_4400).

Pogony Hill Conservation Park Forest Management Map
for
Town of Newport Center
Orleans County
Vermont
2014

Ortho Base 168264 "Cleveland Hill" and 164264 "South Newport"
Grand List Acres 393.7
Calculated Acres 394.8

Productive Forest Areas

Parcel Boundary Notes

- 1) This map is not a survey map and is subject to change by an official survey.
- 2) The property bounds represented on this map have been derived from field evidence, deed descriptions, and survey plats.
- 3) It should be noted that there are both boundary encroachment and monumentation issues along this parcel's boundary.
